

SuperOffice e-Learning

SuperOffice e-Learning include everything you need to quickly and confidently become a proficient SuperOffice user without leaving the office. At your own pace, follow instructive videos, perform tasks and take tests; everything with the goal of teaching you how to use SuperOffice in the most efficient way.

What's in it for your company?

Getting staff fully integrated with your business critical software is at times a challenge. SuperOffice e-Learning is available for you to reduce deployment time and cost. Since SuperOffice e-Learning is web based, it allows your staff to train themselves at the any available time, without attending a time and place specific course. As you can imagine, this will lead to a substantial reduction in training costs yet at the same time, dramatically increases your user's skills. Better productivity, in a far shorter time frame. Sounds smart? It is.

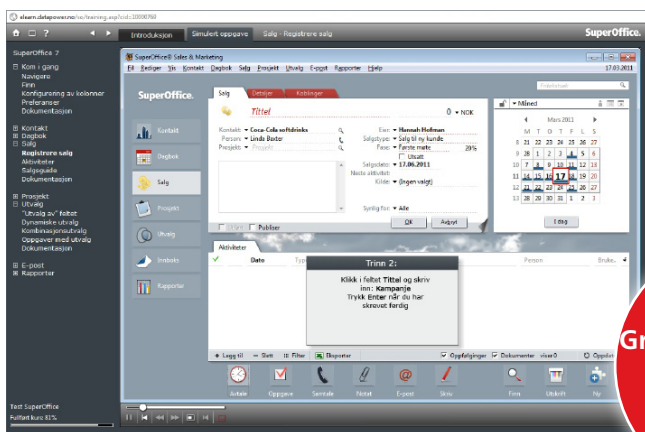

What's in it for your employees?

SuperOffice e-Learning is a practical oriented e-learning program, leaving you to focus on the tasks ahead. Practical "how-to-examples" teach you how to solve day-to-day challenges and task in an efficient way. And you can repeat the training as often as needed. The more you click, the more you learn, so what are you waiting for? Let's login and learn something!

Learning has never looked this simple

Access SuperOffice e-Learning from our website, run through the relevant lessons covering basic and advanced functions. All you have to do is watch the films, listen to the instruction and try it for yourself.

Help On Demand

Being a SuperOffice Sales & Marketing user, its beneficial to have on-demand help. Since SuperOffice e-Learning is available 24/7 regardless of location, you can access information and get help regarding a specific work scenario there and then. With problems to solve or tight deadlines to meet, SuperOffice e-Learning is just a click away.

Administrating individual or group learning

Companies wanting to categorize users and prepare their training will get access to an administrative module. Within this Learning Management System, the administrator can define a "minimum skill level program" for any particular individual or group, making it simple to follow up on their individual progress.

SuperOffice e-Learning can be integrated into the markets major learning portals complying with international e-learning standards. This makes it simple for you to integrate with your already established e-learning program.

Congratulations, you`ve qualified!

After every completed lesson, you are offered the opportunity to take an independent online test that will measure acquired knowledge. On achieving the required score set by the administrator, the system then produces an Authorised SuperOffice Certificate that can be awarded to the individual as proof of their proficiency.
